direct vent gas fireplaces

Rave Series

direct vent gas fireplaces

modern style
best value

The Rave is the best-value modern and linear fireplace available. Its long, unbroken ribbon of flame dances within a sleek landscape design to provide elegant warmth and ambiance. Explore unique placements and create a custom look with diverse finishing options. Experience all the Rave. Add modern style and proven value to your home or office.

Features

- 32" or 42" viewing area
- Moderate heat output—20,000 to 26,000 BTUs
- Multiple interior finishing options
- Convex or flat front options
- Enhanced safety with the IntelliFire™ Ignition System

IntelliFire™ Ignition System

The IntelliFire™ Ignition System (IPI) is an advanced intermittent pilot ignition system. IPI constantly monitors ignition, ensures safe functioning and conserves up to \$10/month in energy costs. To learn more, visit heatilator.com.

Direct Vent Technology

Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality. To learn more, visit heatilator.com.

Cover: Rave 32 shown with Deco front in black, reflective black glass liner and ceramic fiber stones.

Above: Rave 42 shown with Illusion front in black and black glass media.

Options

Front Options

Finish your Rave with clean lines, or add depth with a convex design.

Front Finishes

Black

Bronze

Interior Options

The flames rise through translucent crushed glass for a modern flare or add logs for a fusion of traditional elements.

Black Glass

Crystal Glass

Ceramic Fiber Stones

Reflective Liner Option

Fade resistant black glass liner multiplies the flames and adds intensity to the fire.

Remote Control Option

Quickly and easily control your comfort with a mounted or remote control.

U.S. Efficiencies

Steady State - Since most homeowners use their fireplaces for an extended time while they are in the room, Steady State measures how efficiently your fireplace converts fuel to heat once it is warmed up and running in a "steady state".

AFUE - AFUE rating is more typically used with appliances, like your furnace, that continually cycle on and off to maintain a constant temperature.

Canada Efficiencies

EnerGuide (CSA P.4.1-02) - EnerGuide is a rating used in Canada to measure annual fireplace efficiency.

Rating	RAVE4013I	RAVE3012I
Steady State	75.3% (NG), 75.3% (LP)	60.5% (NG), 65.1% (LP)
AFUE	59.5% (NG), 64.4% (LP)	57.37% (NG), 63.0% (LP)

Rating	RAVE4013I	RAVE3012I
EnerGuide (CSA P.4.1-02)	60.6% (NG), 63.4% (LP)	57.41% (NG), 61.6% (LP)
